

Student Identification Tracker

Authors: Khalil Johnson, Joe Zelinsky, Jeremy Jeffcoat, Dre Mclain

Problem Statement: Students can easily lose, damage, or forget their IDs and get locked out of their homes/classes.

4 W's: Who is experiencing the problem? What is the Problem? Where does the problem present itself? Why does it matter?

Who: Students at schools and universities

What: Students losing/misplacing/damaging their ID cards or key cards (depends on the Uni)

Where: Every university that uses ID cards for admission to dorms, dining facilities, and classrooms.

Why: Most students either worked very hard in high school to get their higher education paid for or have to work a job in college in order to pay tuition. Aside from the replacement fee for an ID card being upwards of \$50 on most campuses, students simply don't deserve to be bled this dry simply for forgetting an important item or losing a very small card.
